

IAN R

BRITISH VOICE ACTOR

PROFILE

I am a full-time voice actor working from my Source Connect enabled broadcast quality home studio in the USA. As a native of the UK, I provide a neutral (RP) British accent so much in demand across the globe. In addition to this, I have been hired to perform in almost 30 other Regional and International English accents. I progressed from curious onlooker to globally recognized award winning voice actor in just 6 years and bring a customer service oriented eye for detail to every project for which I am hired.
